

# Transom Flush Mount

**AF1063** 1.0

## GENERATION LIGHTING

### Ceiling

#### GENERAL PRODUCT INFORMATION:

These fixtures are intended to be installed utilizing NEC compliant junction boxes.

This product is safety listed for damp locations.

Incandescent lamps may be dimmed with a standard incandescent dimmer. LED lamps may be dimmed with a LED dimmer. Consult lamp manufacturer for additional information.

This instruction shows a typical installation.

#### CAUTION - RISK OF FIRE

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

Use minimum 90°C supply conductors.

- 1** Secure the mounting plate to the junction box.
- 2** Connect the fixture to a suitable ground in accordance to local electrical codes.
- 3** Connect the white fixture wire to the neutral power line wire with a wire nut.
- 4** Connect the black fixture wire to the hot power line wire with a wire nut.
- 5** Properly place all wire nut connection into the junction box/fixture base. Align the fixture base with the mounting studs and secure the fixture base with the cap nuts.
- 6** Screw the lamps into the sockets. Refer to the label on the lamp socket for Max Wattage information.
- 7** Place the diffuser into the fixture frame.
- 8** Lift the frame to the fixture base and align the tabs with the holes in the fixture base.
- 9** Secure the fixture frame to the base with the provided thumb screws.
